Till now contenting first class.
Along with my study pursuing Data analytics from Tops technology's.
MY Long-term Goal is Data science

2). Why did you choose this language?

Ans--I am studying in BE computer science Engineering. In this field many subjects learn but I am interested for python,SQL and Data Mining etc . All the subjects are related to Data and I am also interested work with Data. One day in my college Tops Technology gave us seminar for how to choose right career path and More Information were given for Data Analytics. I was interested in knowning more information then visited Tops Technology .Then I decided to make My career in as a Data analytics and then join Tops technology and improve My skill .

3). Explain your project?

Ans--Project Name: Cricket Dashboard

I have created an interactive and visually appealing Power BI dashboard specifically focused on capturing and analyzing Virat Kohli's performance in two formats of cricket: T20 (Twenty20) and ODI (One Day International) matches. This project aims to provide cricket enthusiasts, analysts, and fans with a comprehensive tool to gain insights into Virat Kohli's batting statistics and milestones achieved during his cricketing career.

Key Features:- 1) Data Integration 2) Visualizations 3)Batting Performance 4)Comparative Analysis 5)Interactive Filters

Certainly, here are the project names for the three additional dashboards:

1. Amazon Sales Dashboard

2. Life Expectancy Dashboard

3. Netflix Data Analysis Dashboard

4). What do you know about our company?

Ans--I've done some research on this Company and have gained some insights into your organization.

In my role as a Data Analyst, I'm particularly excited about the opportunities that Company offers. Your company's commitment to innovation and data-driven decision-making aligns perfectly with my expertise and professional aspirations.

I'm eager about the opportunity to contribute to company success by using data to gain valuable insights. My background in data analysis positions me well to support Company mission and contribute to the exciting future of technology.

5). What are your strengths?

Ans--I am punctual and loyal to my work.

a) How can you say that you are a hard-working person?

Ans-It's just because whatever task is assigned to me, I just get into it. I don't even see the time.

b) You are punctual, how can you say so?

Ans-Because I always value the time, as I understand that "Time once gone, can never be regained."

c) How are you loyal to your work?

Ans-Because I always treat my company like my own, that's why I work with honesty and

dedication.

--Time Management

Sure. I'm good at managing my time. I make plans for what I need to do and when I need to do it. I use things like to-do lists and calendars to stay organized. If a project seems big, I break it into smaller parts so it's not overwhelming. I always try to finish things on time.

I know what tasks are important, and I focus on those first. If something unexpected comes up, I can change my plans quickly. Being on time is important to me. Whether it's finishing a project or going to a meeting, I try to be punctual. Managing my time well helps me get things done and do my best work."

--Self-Confidence:

"I feel sure about what I can do. When I face challenges, I know I can handle them. I believe in my ability to learn and adapt, and that helps me stay positive. Understanding what I'm good at gives me the confidence to take on tasks and do my best work."

--Self-Motivation:

"I'm a motivated person. I set goals for myself and work hard to achieve them. I always want to do better, and I see both successes and challenges as opportunities to learn and grow. This inner drive pushes me to take the lead and give my best in everything I do."

6)What is your weakness?

Ans-1)I can't say NO if anyone asks me for help. I think, that's my weakness.

It's because I need to work a little extra then.

2)Very emotional person.

Ans--Sometimes, we need to be selfish too; otherwise, we get into trouble.

3) Overthinking:

Sometimes, I think too much about things, and it takes me a long time to make decisions.

4) Quick Reactions:

I often react fast, but that can mean I don't always think carefully before deciding.

5) Multitasking:

I try to do many things at once, but it can make me a bit scattered, and I might not do each task as well as I could.

6) Trouble Asking for Help:

I don't like asking for help, even when I should. I'm learning that it's okay to get help because it can make things easier.

7). What motivates you to do a good job?

Ans—

Given my highly technical mindset, one of the things that motivate me the most is data analysis. I enjoy analyzing data and getting as much information as I can, and applying this to address problems for the company. My ideal work environment is one where I am given challenging and complex problems for the company and can use data and logic to come up with new or creative solutions.

I am also motivated by responsibility. This means that the more important the task or duties given to me, the easier I find it to work hard to resolve them as I get a sense of personal satisfaction from achieving success.

8). What is your salary expectations?

Ans--Considering the responsibilities of the position and my skills and experience, I would be comfortable with a salary of $20,000 per month. I believe this figure reflects both my dedication to the role and industry standards for someone with my qualifications. I'm open to discussing the details and am excited about the opportunity to contribute to the team's success.

9). Tell me about your achievements.?

Ans-- In college, I'm proud that I always get the best grades (first-class). This shows I'm good at managing my time and believe in myself. Juggling classes, assignments, and exams isn't easy, but doing well proves I can handle it. This achievement means a lot to me because it shows I'm committed and can do well even when things get tough.

10). Where else have you applied?

Ans-- I've recently created a LinkedIn profile to enhance my professional presence. Currently, I haven't applied to any other companies as I am focusing on building connections and exploring opportunities through my LinkedIn network. I'm particularly excited about the placement Tops Technologies has provided me, and I'm fully committed to contributing my skills to the success of the team. It's my priority to excel in this role and make a meaningful impact. At this moment, I'm not actively pursuing opportunities with other companies.

11). If given a choice would you like to work in a team or standalone?

Ans--I'm comfortable working on my own or with a team, but if I had to choose, I'd prefer working in a team. Teamwork allows us to share ideas and thoughts, making the work more interesting and creative. However, I also enjoy standalone work as it gives me the chance to focus and bring my best to the table independently. Both have their strengths, and I'm adaptable to either situation.

12). What are your expectations from the company?

Ans--I expect the company to be a supportive and friendly place where I can learn and contribute. I hope for a positive work environment that encourages teamwork and growth. Ultimately, I want to be part of a company where my efforts matter, and I can develop both personally and professionally.

13). What makes you angry?

Ans--I'm generally easy-going, but I might feel a bit upset when things don't go as planned or when there's a misunderstanding. I believe in clear communication and working together, so situations that disrupt that harmony can be a bit challenging for me.

14). Whom do you consider as your role model?

Ans--My mom and dad are my heroes. They work hard, teach me good things, and are always there for me. I want to be just like them because they show me how to be a good person and handle tough times.

15). Tell me about your hobbies?

Ans--I really like listening to love songs. They make me feel happy. I enjoy finding new beautiful songs for my playlist. Garba is also my favorite! I love dancing to its lively beats. And, I also play kho kho. It's a fun game that keeps me active and happy.

16). Where do you see yourself five years down the line?

Ans--In the beginning, I want to work hard and help your company grow for the first 2-3 years. I hope to make it even more successful. Later on, my big dream is to start my own company. I want it to be famous for doing things in a new way and giving chances to new people. I really want my company to be a great place for beginners to learn and do well in their careers.

17). Are you comfortable extending your work timings and work over weekends?

Ans--Yes, I am comfortable extending my work timings and working over weekends when needed. I understand that sometimes extra effort is required to meet deadlines or handle important projects, and I am committed to contributing my best to achieve team goals.

18). How long would you work for us if hired?

Ans--If hired, I am looking for a long-term commitment with the company. I am excited about the opportunity to contribute to the team's success and grow within the organization. I believe in building a meaningful and lasting career with a company that aligns with my values and professional goals.

19). Can you work under pressure or deadlines?

Ans--Yes, I can. Sometimes, we do need to work under pressure as well. That's not a problem for me at all. I understand the importance of meeting deadlines and can effectively manage my time and priorities to deliver high-quality work even in demanding situations.

20). What is the biggest mistake you ever made?

Ans--I haven't really made any big mistakes. I try to be careful in what I do, and if something doesn't go right, I use it as a chance to get better. I believe every experience helps me learn and improve

21). What was the toughest decision you ever had to make?

Ans-- One big decision I made was taking a data analyst course while in college. It was challenging to balance both, especially when I faced difficulties with my college exams. Despite the tough times, I believe choosing to pursue the course was the right decision as it opened up opportunities for learning and growth in my desired field.

22). What was the biggest failure you had to face?

Ans--I haven't experienced any big failures so far. I believe that every challenge is an opportunity to learn and grow. Even if things don't go as planned, I try to find lessons in those experiences and use them to improve in the future.

23) Why should I hire you?

Ans--I'm good at managing my time, solving problems, making decisions, and leading a team. I believe these skills make me a great fit for the job. I assure you; you'll never regret the decision to hire me. I'm confident that if you bring me on board, I'll be a valuable and reliable member of your team.

24). Would you be ready to relocate if hired?

Ans--"Yes, I'm ready to move if needed. I'm flexible and excited about the possibility of working in different locations to contribute to the success of the team."

25). Do you know anyone who works for us?

Ans--No, I currently don't know anyone who works for your company. However, I'm eager to connect with and become a part of the team.

#) Why do you want to work at our company?

Ans--It's a growing/reputed company in India. As far as, I've heard about it; the work environment is amazing out here. People really feel proud of working here. It's truly a golden opportunity for me to work here and explore my potential to the best.
